

Meksea Connection

**THE
LEADING
SEAFOOD DISTRIBUTOR
IN VIETNAM**

FROM THE BEGINNING...

“
Our success today comes from the trust of global customers who also are our friends. With our sincerity, we strive to excel in every task, hold the hands of our friends to overcome difficulties and aspire to a brighter and richer future together. Thanks for all!

from Mr. Hoang Duy – the Owner & Founder of Meksea.

Mekong Seafood Connection (**Meksea**) was set up in 2010 in the knowledge that Vietnamese seafood though among the top richest sources still has not made its name popularly known for the variety and quality to consumers worldwide.

We understand the shortest way to get Vietnamese seafood to the top ranks of the world is through the connection of various strengths from individual, capable producers by international standards and the strictest control on quality and sustainability. On top of that is the commitment to more and more professional services so that customers around the world could put their trust into each order they place.

...UNTIL NOW AND THE FUTURE

After the years of driving Mekong Seafood Connection in that direction, we are now proud that **Meksea** has been gradually gaining its name as a top prestige distributor in Vietnam, having full manufacturing cooperation with more than 100 most competent factories located across different material areas throughout Vietnam to produce a full range of seafood species to export to over 90 markets in the world.

MEKONG SEAFOOD CONNECTION

Our Vision

Meksea strives to be the most prestigious distributor of frozen seafood in Vietnam in terms of quality, delivery time and professional services.

Our Mission

We set the consumers' mind at rest by providing true quality seafood products under **Meksea Brand name**, which will strongly assure each family member's health.

Our Core Values

Professional – Conscientious – Sharing.

CREATING SUSTAINABLE ADDED-VALUES ON EVERY ORDER

Why Meksea?

C-SAVEO

Creating Sustainable Added-Values on Every Order

- 1 Meksea can offer partners the possibility of developing businesses by **combining many different items** into 01 container & rare products.
- 2 Meksea supports traditional customers with flexible payment terms/times such as **"Payment after Receipt"**. You can place an order ► receive the shipment ► make the sale, earn the money ► then settle payment with Meksea.
- 3 Meksea can control the quality of each product specification right from the stage of customers placing an order, to ensure products are produced to the **exact specification** of customer's expectation.
- 4 Meksea ensures that goods are delivered at the scheduled **shipment time** so as to meet the customer sales circulation plan.

- 5 Meksea can meet large and long-term orders with **complex production and packaging specifications**.
- 6 Meksea **eliminates risks** that businesses could have when working with production units in Vietnam such as losing deposits, slow delivery, receiving goods of incorrect specification or poor quality, etc.
- 7 Meksea guarantees goods in accordance with the standards and regulations of each **individual market**.
- 8 Meksea can produce orders using customers' packaging labels and assist customers in **designing & promoting their own brands**.
- 9 Meksea has the competences to sell at **competitive prices** to customers at each market time.
- 10 Meksea's sales, after-sales service and handling complaints are always placed as number 01 priority following the culture of **Professional – Conscientious – Sharing**.

Pangasius Hypophthalmus

The Mekong River of Vietnam is known as Nine Dragons pouring into the big sea, one of the longest rivers in the world. The soil and the alluvial characteristics here have created advantages that are nowhere else on earth. The Vietnamese seafood specialty - Pangasius is commonly known as being the best quality in the world.

“MEKSEA has been doing our best to offer and supply the "Premium pangasius products" which are 100% natural quality. I strongly desire that all worldwide customers will have the chance to taste it from nature.

Mr. Hoang Duy - the Owner & Founder of Meksea said.

Tuna Belly

Tuna has been identified as one of the major export products of Vietnamese seafood. The long coastline has given us ambient conditions for breeding Tuna such as: yellow fin tuna, big eye tuna, long fin tuna, southern blue fin tuna and striped melon tuna... Our products are now available in more than 200 markets in which US, Europe and Japan are amongst the largest importers.

Not just a prestigious supplier of tuna, Meksea is proud to be a responsible partner for the oceans by saying NO to IUU. We believe that a strong economic growth should be built by a sustainable development.

AVAILABLE CERTIFICATES

QUALITY IS OUR FIRST PRIORITY

MEKSEA is recognized by worldwide customers as a top seafood distributor in Vietnam and have received their trusts and orders thanks to our ability to supply a wide range of seafood with high and sustainable quality.

Our Quality Control Team supervises the production and controls the quality independently and strictly during the process - from receiving raw material to loading the goods on board for our customers.

Our Quality Control Specialists, who are considered among the best experts in Vietnam, have been carefully trained and gained more than 10 years' experience in the field of seafood. Furthermore, they all used to hold important positions in world leading inspection companies such as Intertek, SGS, etc., which should convince you of their specialized knowledge and skills.

Meksea's Quality Control Specialists carries out a 5-check process to ensure the best quality for customers.

5 CHECKS:

- ◆ 1. Checking traceability of raw materials
- ◆ 2. Checking production process
- ◆ 3. Checking frozen storage area
- ◆ 4. Checking product quality before shipment
- ◆ 5. Checking loading cargo on means of transportation
